- **Tools**: Git, GitHub, Astro, Vercel, Netlify
- **CMS & Backend**: WordPress, PHP, MySQL
- **Other**: REST APIs, Responsive Design, Email Development

Languages

- English - B2
- Serbian - native

Profile

Frontend developer with **3+** years of experience — built over **150 landing pages**, **WordPress** sites, and **React** apps. Coming from a CNC/mechanical engineering background, so I'm big on precision and solving problems methodically.

Work Experience

2023 - Present
Fortrade | Belgrade
Web Developer/ PPC Marketing

- Built 150+ responsive landing pages with **HTML**, **CSS**, **JavaScript**
- Developed **React** blog applications with search, categories, and dynamic content
- Created 100+ production email templates tested across **Gmail**, **Outlook**, and legacy clients
- Built and maintained **WordPress** sites with custom themes

2018 - 2022
Belgrade
CNC Programmer/Operator

Programmed and operated CNC lathe and milling machines across aerospace, pump manufacturing, and custom product industries.
